

YOU RIDE

We take care of the rest.

Smoke your tire, not your engine! Because AMSOIL Synthetic Motor Oils fight friction and heat far better than ordinary oils, your bike's engine will run cooler, quieter, with more power.

AMSOIL delivers:

- *Unsurpassed friction and wear protection*
- *Reduced oxidation, deposit formation and engine varnish.*
- *Excellent wet clutch compatibility.*
- *Superior rust and corrosion protection.*

AMSOIL 20W-50 and 10W-40 are recommended for all V-twin and other 4-cycle motorcycle engines. AMSOIL also offers a complete line of filters, chain lube and more for all your riding needs.

Find out why more and more bikers are choosing AMSOIL.
