

Delivering the Power of Synthetics

Since 1972

If it's performance you're after, think hard about the oil you choose. The higher zinc and phos levels in these oils help prevent the cam and follower wear that you might experience with today's low-zinc oils. Choose AMSOIL synthetic motor oils and performance products.

For more information,

or call **1-800-777-8491**

Or check your Yellow Pages
for the Dealer nearest you.

The AMSOIL logo consists of the word 'AMSOIL' in a bold, italicized, sans-serif font. The letters are white with a blue outline and a red shadow effect, giving it a three-dimensional appearance.
