

Plagued by hard starts, rough idle, hesitation, poor acceleration?

DIAGNOSIS: intake system deposits.

PRESCRIPTION:

**Pi. GASOLINE
ADDITIVE**

RESULTS: improved performance, better fuel economy, reduced emissions.

CLEAN-UP DOSE: Six ounces to ten gallons of gasoline dissolves old injector and valve deposits within a few hundred miles.

MAINTENANCE DOSE: Just one ounce to ten gallons of gasoline keeps fuel line and intake components clean and trouble free.
