

Select Package Sizes of AMSOIL Diesel Recovery Discontinued, Available at Reduced Pricing

Due to limited sales, bottles, five-gallon pails and 55-gallon drums of Diesel Recovery (DRC) are discontinued and available while supplies last. Diesel Recovery is still available in 30-ounce bottles. Discontinued package sizes are available at reduced prices and revised commission amounts. AMSOIL will not accept returns on these sale-priced, discontinued items.

AMSOIL Diesel Recovery (DRC) quickly and effectively dissolves the wax crystals that form when diesel fuel surpasses its cloud point. It liquefies gelled diesel fuel, thaws frozen fuel filters and reduces the need for a new filter, saving money and allowing the operator to continue driving with minimal downtime. AMSOIL Diesel Recovery performs well in all diesel fuels, including ULSD, off-road and biodiesel and is alcohol-free and non-corrosive.

Stock #	Unit of Measure	Pkg./Size	Reduced Price
