

## 2007 Ford Mustang GT

*AMSOIL Dual Remote By-Pass Filter System  
Submitted by Dealer Jim Fleschner*

The oil filter on this vehicle is located on the left front corner of the engine and there is plenty of room under the left front fender well to install the BMK23 system. The frame rail is hollow, industrial blind nuts were used to attach the mounting bracket to the frame. Fleschner used the EaBP110 By-Pass Filter, increasing oil capacity to 9.5 quarts.
