

## Material Safety Data Sheet

Signature Series Synthetic Motor Oils, SAE 0W-20,  
SAE 0W-30, SAE 5W-20, SAE 5W-30, SAE 10W-30

Date : 06/15/2014  
Version : 1.X

### Section 1. Product and company identification

---

**Product name**

Signature Series Synthetic Motor Oils, SAE 0W-20, SAE 0W-30,  
SAE 5W-20, SAE 5W-30, SAE 10W-30

**Material uses**

Motor oil. Not to be misted.

**Supplier/Manufacturer**

AMSOIL INC.  
One AMSOIL Center  
Superior, WI 54880

**Code**

ASM, AZO, ALM, ASL, ATM

**MSDS authored by**

AMSOIL INC.

**In case of emergency**

CHEMTREC, U.S. : 1-800-424-9300  
International: +1-703-527-3887

### Section 2. Hazards identification

---

**Emergency overview**

- Color** : Amber.
- Physical state** : Liquid.
- Odor** : Mild hydrocarbon.
- Hazard statements** : NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.
- Precautions** : No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing.
- Routes of entry** : Dermal contact. Eye contact. Inhalation. Ingestion.
- Potential acute health effects**
  - Inhalation** : No known significant effects or critical hazards.
  - Ingestion** : No known significant effects or critical hazards.
  - Skin** : No known significant effects or critical hazards.
  - Eyes** : No known significant effects or critical hazards.
- Potential chronic health effects**
  - Chronic effects** : No known significant effects or critical hazards.
  - Carcinogenicity** : No known significant effects or critical hazards.
  - Mutagenicity** : No known significant effects or critical hazards.
  - Teratogenicity** : No known significant effects or critical hazards.
  - Developmental effects** : No known significant effects or critical hazards.
  - Fertility effects** : No known significant effects or critical hazards.
- Over-exposure signs/symptoms**
  - Inhalation** : No known significant effects or critical hazards.
  - Ingestion** : No known significant effects or critical hazards.

**Skin** : No known significant effects or critical hazards.

**Eyes** : No known significant effects or critical hazards.

**Medical conditions aggravated by overexposure** : None known.

See toxicological information (Section 11)

## Section 3. Composition/information on ingredients

Name	CAS number	%
Base Oil(s)	Mixture	30 - 60

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## Section 4. First aid measures

**Eye contact** : Immediately flush eyes with plenty of water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur.

**Skin contact** : After contact with skin, wash immediately with plenty of soap and water. Get medical attention if symptoms occur.

**Inhalation** : Move exposed person to fresh air. Get medical attention if symptoms occur.

**Ingestion** : Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

**Notes to physician** : No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

## Section 5. Fire-fighting measures

**Flammability of the product** : No specific fire or explosion hazard.

### Extinguishing media

**Suitable** : Use an extinguishing agent suitable for the surrounding fire.

**Not suitable** : None known.

**Hazardous decomposition products** : No specific data.

**Special protective equipment for fire-fighters** : No special protection is required.

---

## Section 6. Accidental release measures

---

- Personal precautions** : Put on appropriate personal protective equipment (see Section 8).
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Methods for cleaning up**
- Small spill** : Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose via a licensed waste disposal contractor.
- Large spill** : Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

---

## Section 7. Handling and storage

---

- Handling** : Put on appropriate personal protective equipment (see Section 8). Avoid contact with used product. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not reuse container.
- Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

---

## Section 8. Exposure controls/personal protection

---

Under conditions which may generate mists, the following additional exposure limits are recommended:  
ACGIH TLV TWA: 5 mg/m<sup>3</sup> ; STEL: 10 mg/m<sup>3</sup>.

Consult local authorities for acceptable exposure limits.

- Recommended monitoring procedures** : Personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.
- Engineering measures** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

- Respiratory** : Not required under normal conditions of use. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
- Hands** : Not required under normal conditions of use. Use gloves appropriate for work or task being performed.
- Eyes** : Not required under normal conditions of use. Safety eyewear should be used when there is a likelihood of exposure. Recommended: Safety glasses with side shields.
- Skin** : No special protective clothing is required.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

## Section 9. Physical and chemical properties

- |                         |  |                                      |                                   |
|-------------------------|--|--------------------------------------|-----------------------------------|
| <b>Physical state</b>   | : Liquid.  | <b>Odor</b>                          | : Mild hydrocarbon.               |
| <b>Color</b>            | : Amber.   | <b>pH</b>                            | : Not available.                  |
| <b>Flash point</b>      | : Open cup: 226 to 230°C (438.8 to 446.0°F)<br>[Cleveland.]  | <b>Auto-ignition temperature</b>     | : Not available.                  |
| <b>Flammable limits</b> | : Not available.   | <b>Melting point/<br/>Pour point</b> | : -53 to -47°C (-63.4 to -52.6°F) |
| <b>Boiling point</b>    | : Not available.   | <b>Vapor pressure</b>                | : Not available.                  |
| <b>Relative density</b> | : 0.854 to 0.8633  | <b>Vapor density</b>                 | : Not available.                  |
| <b>Volatility</b>       | : Not available.   | <b>Evaporation rate</b>              | : Not available.                  |
| <b>Viscosity</b>        | : Kinematic: 0.086 to 0.105 cm <sup>2</sup> /s (8.6 to 10.5 cSt) (100°C)<br>Kinematic: 0.466 to 0.621 cm <sup>2</sup> /s (46.6 to 62.1 cSt) (40°C) | <b>Solubility</b>                    | : Not available.                  |

## Section 10. Stability and reactivity

- Chemical stability** : The product is stable.
- Conditions to avoid** : No specific data.
- Materials to avoid** : Reactive or incompatible with the following materials: oxidizing materials.
- Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.
- Hazardous polymerization** : Under normal conditions of storage and use, hazardous polymerization will not occur.

## Section 11. Toxicological information

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Hydrogenated Base Oil (64742-54-7)	LD50 Dermal	Rabbit	>5000 mg/kg	-
	LD50 Oral	Rat	>5000 mg/kg	-

### Chronic toxicity

There is no data available.

### Irritation/Corrosion

**Skin** : There is no data available.

**Eyes** : There is no data available.

**Respiratory** : There is no data available.

### Sensitizer

**Skin** : There is no data available.

**Respiratory** : There is no data available.

### Carcinogenicity

There is no data available.

### Mutagenicity

There is no data available.

### Teratogenicity

There is no data available.

### Reproductive toxicity

There is no data available.

## Section 12. Ecological information

**Ecotoxicity** : No known significant effects or critical hazards.

### Aquatic ecotoxicity

There is no data available.

### Persistence/degradability

There is no data available.

---

## Section 13. Disposal considerations

---

**Waste disposal** : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Empty containers or liners may retain some product residues. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

---

## Section 14. Transport information

---

### North America

**TDG/IMDG/IATA** : Not regulated.

---

## Section 15. Regulatory information

---

### Canada

**WHMIS (Canada)** : Not controlled under WHMIS (Canada).

### Canadian lists

**Canadian NPRI** : None of the components are listed.

**CEPA Toxic substances** : None of the components are listed.

**Canada inventory** : Not determined.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

---

## Section 16. Other information

---

**Date of issue** : 06/15/2014

**Version** : 1.X
