THE ORIGINAL INDEPENDENT SNOCROSS TEAM

## Scheuring Speed Sports gets the crowd involved at Haydays

**Aurora, MN (September 17, 2009)** - Looking to get the fans more hands on opportunities, Scheuring speed sports in conjunction with WOODYS, Makita Industrial Power Tools, Polaris, and KLIM put on the first ever Carbide Quick change contest. Contestants would put on a pair of KLIM gloves, grab a Makita cordless impact wrench, take a WOODYS carbide off of a 2009 Polaris IQ front end, replace the carbide, set the impact down, take the gloves off and stop the timer. The fastest time of each day received the Makita 3/8" cordless impact wrench that was used in the contest that day. The winning times were 49 seconds on Saturday and 49 seconds on Sunday. In addition to the tools, contestants were awarded prizes from AMOIL, Woodys, Polaris, and KLIM.

Under the awning at the Scheuring transporter, The Air Force, AMOIL, Action Graphics, Makita, Polaris snowmobiles (as well as a military Polaris Ranger) were on display. ISOC was also in the display area taking memberships and answering questions for the upcoming season.
