The third round of the Canadian Championship is now finished. Sunday was a day of rain, sun, wind and especially of cold. I had two good starts, but once again I have made too much mistake. I fell more than once in each race. I finished 10th and 15th. For sure I am disappointed, but far from the idea to be discouraged. I did not hurt myself this week end, so I will be able to train on my bike all week long. Since Ste-Julie, I did not practice so much on my bike because I had to let heal my body from the crashes that I had. Even if I had train myself on my bicycle and at the gym, if you don't practice on the bike you can lose your reflexes and I think that was my problem this week end.

Cristian had a lot of new adventures this week end. Unfortunately he made a flat during the first race and it finished 33rd on the second moto. It was his first touch with the concrete start. The ruts and the mud gave him lots of trouble, in Chile they don't race if it's raining...

Thanks to all sponsors that make this possible.
