AMSOIL Product Testimonial: Since switching to all Amsoil fluids my racing career has improved greatly and have experienced no drivetrain failures. I use the 20w50 Racing Oil in the engine, ATF in the transmission and I also use Severe Gear 75w140 in the rear end. I have finished 2nd, 3rd, and 4th this season to date. This is the best I have ever done in my racing career. Thanks Amsoil for all your great products.
